Loeffler Randall Handbags

Jessie Randall knows a woman's weaknesses. Hot on the heels of her debut shoe collection under the name Loeffler Randall last year, the designer introduces a handbag line just in time for fall. Echoing the same understated elegance of her modern pumps and flats (with a gentle nod to her chic grandmother's closet of enviable accessories), Randall's woven leather satchels, shoulder bags, and clutches are destined to become classics. While downtown, uptown, and hip outer-borough style mavens alike are sure to delight in the timeless appeal of the day-to-night Bimmy shoulder bag, it's the brand's signature satchel, the Hattie, with its carry-all capacity and casually innovative woven pleats, that will inspire the waiting lists. —ANDI TERAN
